

CUB launches Gas EPC at Sustainability Live

CUB (UK) Ltd are looking forward to exhibiting at Sustainability Live this year where they will be celebrating 20 years in business and launching their new Gas Exclusive Purchasing Collective, a gas basket with some unique selling points.

Gas Exclusive Purchasing Collective

Unique Selling Points and Key Contract Points

- Ability for customers to **benefit** from **group purchasing** under a basket strategy but still **remain autonomous**.
- Customers sign their own **individual supply contracts** with GDFS with site specific charges.
- The customer has the **option to exit the basket** at any time by carrying out a "Balance of Contract" fix for their remaining volume.
- **No Take or Compensate** on customers with AQs of **below 2m therms**.
- Customers with an AQ of over 2m therms have an associated +/- 20% tolerance levels. The tolerance position is assessed for the basket as a whole and only if the entire basket is outside of this tolerance do GDFS look to invoke take or compensate and even then only on the customers that have breached - "**polluter pays**" approach.
- Cross subsidy only in terms of the benefits of group purchasing and the assessment of Take or Compensate, in all other aspects the customer remains autonomous.
- Contract includes GDFS' "**Best of 4 Screens Guarantee**"
 - o For transactions in multiples of 1,000 therms/day between 1,000 and 25,000 therms/day
 - o 4 Screens are: Tullet Prebon, GFI, ICAP & Spectron.
- Option to **fix** 100% of the volume at a **Day Ahead** price **without** a monthly cashout process.
