

Mud May Get Tricky for Vicky in Race For Life Challenge

Vicky Ellis, head of business support at CUB, a March-based energy brokers, is taking part in the challenge by covering a 5k obstacle course.

Ms Ellis said: "Every two minutes someone in the UK is told they have cancer. As the population grows and ages, the number of cases continues to rise.

"My reason to take part is my Dad, he was diagnosed with cancer about three years ago and because they caught it early he has had treatment and been given the all clear. I don't know anyone whose life hasn't been affected by cancer and it's such an important cause to raise money for."

The race takes place on September 20.
