

A continued downturn in unit rate costs over the last quarter as tied in line with the wholesale market. As conditions begin to resemble a somewhat "normal" market landscape, suppliers have now regularly started to offer competitive 24 and 36 month durations moving away from the previous limitations on contract lengths due to market uncertainty. As we moved into the Summer 23 period most suppliers end of curve has stretched to Sep 26 and beyond, allowing us to begin to offer competitive options with contract start dates as far out as October 24.
